WHAT WE DO

Provide a constant reminder to visitors to your premises with our wide selection of social distancing and safety signage.

Social Distancing and Safety Signs are a simple way to communicate instructions to personnel, visitors or service providers, whether in retail, commercial, services, manufacturing, logistics or any other industry, about the need to maintain strong social distancing practices by providing clear, easy to read directives for all to see.

WANT TO GRAB ATTENTION?

Floor graphics are a highly effective tactic and a unique way of providing directional cues and can be used on just about any surface.

Our signs are available in a wide range of materials making them quick and easy to install. From floor graphics, wall signs and entrance signs, we have worked hard to develop a range which we know will suit most businesses needs and help them to advise personnel, customers, visitors and service providers to their sites to adhere to staying 2m / 6ft apart.

In addition to social distancing signs, we also offer a range of hand hygiene signs as well as stencils and floor markings.

Business Supplies Direct has been supplying safety signs and safety products for over 20 years.
